

Reflexive

§ Reflexive

Parameters

- + $A \in \text{Set}$
- + $R \in A \sim A$

Assumptions

- a. $\text{id}_A \subseteq R$

Observations

1. $(\forall a \mid a \in A : a \text{ R } a)$

■

Proof of Observation 1

◆ $\text{id}_A \subseteq R$

≡ Extensionality

$(\forall y, x \mid y \text{ id}_A x : y \text{ R } x)$

≡ Definition of identity

$(\forall y, x \mid y = x \wedge x \in A : y \text{ R } x)$

≡ One-point rule

$(\forall x \mid x \in A : x \text{ R } x)$

■
